INDEPENDENT AUDITORS' REPORT

To The Board of Trustees
The Greater Kanawha Valley Foundation and
Affiliated Supporting Organization
Charleston, West Virginia

We have audited the accompanying combined statements of financial position of The Greater Kanawha Valley Foundation and affiliated supporting organization (the Foundation) as of December 31, 2009 and 2008 and the related combined statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Foundation's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provides a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2009 and 2008, and the changes in its net assets, and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Note 1 - Organization and Summary of Significant Accounting Policies

Organization

The Greater Kanawha Valley Foundation is a charitable community trust organized in 1962 and operates under the laws of West Virginia. The Foundation accepts contributions, creates and administers funds, and makes grants for the benefit of the people of the Greater Kanawha Valley. The Foundation has been recognized by the Internal Revenue Service (IRS) as a tax-exempt organization as described in Section 501(c)(3) and 509(a)(1) of the Internal Revenue Code. The combined financial statements of The Greater Kanawha Valley Foundation and its Affiliate (the Foundation) are composed of The Greater Kanawha Valley Foundation and TGKVF, Inc.

TGKVF, Inc., a supporting organization, was formed on December 9, 1986, primarily to operate for the benefit of, and to carry out the purposes of, the Foundation (see Note 13).

Basis of Presentation

The combined financial statements for the Foundation have been prepared on the accrual basis of accounting, which means that revenues are recognized as they are earned and expenses are recognized as they are incurred whether or not cash is received or paid out at that time.

Use of Estimates

The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the combined financial statements, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentrations

In the regular course of business, the Foundation maintains cash balances at several financial institutions located in West Virginia that may exceed the federally insured amount. Accounts at each financial institution are insured to the limits established by the Federal Deposit Insurance Corporation. The Foundation has not experienced any losses in such accounts and management believes it is not exposed to any significant credit risk with respect to its cash and cash equivalents.

Classification of Net Assets

Professional standards contained in the Not-for-Profit Entities - Presentation of Financial Statements Topic of the FASB Codification provide guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006, (UPMIFA), including guidance pertaining to disclosures about an organization's endowed funds (both donor restricted endowment funds and board designated endowment funds) whether or not the organization is subject to UPMIFA.

The State of West Virginia adopted UPMIFA effective March 5, 2008. The board of directors, on the advice of legal counsel, has determined that the Foundation's net assets do not meet the definition of endowment under UPMIFA. The Foundation is governed subject to the Declaration of Trust and most contributions are subject to the terms of the Declaration of Trust. Certain contributions are received subject to other gift instruments, or are subject to specific agreements with the Foundation.

THE GREATER KANAWHA VALLEY FOUNDATION
AND AFFILIATED SUPPORTING ORGANIZATION
NOTES TO COMBINED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2009 AND 2008

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

Under the terms of the Declaration of Trust, the board of directors has the ability to distribute so much of the corpus of any trust or separate gift, devise, bequest, or fund as the board in its sole discretion shall determine. As a result to distribute corpus, all contributions not classified as temporarily restricted or permanently restricted are classified as unrestricted net assets for financial statement purposes.

Temporarily restricted net assets consist of irrevocable charitable trusts, lead trusts, restricted contributions receivable, and the remaining portion of donor-restricted endowment funds that are not classified as permanently restricted net assets. When donor restrictions expire, that is, when a stipulated time restriction ends or a purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and are reported in the statements of activities as net assets released from restrictions.

Permanently restricted net assets represent the fair value of the original gift as of the gift date and the original value of subsequent gifts to donor-restricted endowment funds. There are no permanently restricted net assets as of December 31, 2009 and 2008.

Endowment Investment and Spending Policies

The Foundation has adopted investment and spending policies that seek to provide a predictable stream of funding to programs while maintaining the purchasing power of the assets. The Foundation's spending and investment policies work together to achieve this objective. Actual returns in any given year may vary from this amount.

The primary objective of the Foundation's investment policy is to preserve the real (after inflation) value of its current and subsequently acquired assets. A second objective, subject only to the first, is to provide the maximum flow of funds for grant making, operating expenses and fees (including investment management fees). The flow of funds should be reasonably predictable and rise at least as rapidly as inflation.

To achieve its investment objectives over long periods of time, the Foundation has adopted an investment strategy that invests in domestic equities, international equities, fixed income, real assets and alternative hedge funds. Diversification by asset class, investment style, investment manager, etc. is employed to avoid undue risk concentration and enhance total return.

The spending policy determines the amount that the Foundation makes available for grants from each Fund and will be calculated by multiplying a percentage by a base.

The base for grant distribution will be the twenty-quarter moving average of the market value of each Fund's total market value. It is the Foundation's present judgment that an annual percentage factor of 5% be distributed from the market value average. The Foundation recognizes that certain circumstances may call for a different base and/or percentage to be used. In such instances, the President of the Foundation, after consultation with the Investment Committee, may adjust the base and/or percentage used for grant distribution.

This computation will be made at the beginning of each fiscal year to include the last 20 quarters, estimating the last quarter, if necessary.

Should the total market value of any fund fall below the initial corpus plus additional contributions to the corpus, no distributions will be made unless authorized by the fund agreement or the Board of Trustees as permitted by law.

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

Income Taxes

The Foundation is classified as “an other than private foundation” and is exempt from income taxes under the Internal Revenue Code Section (501(c)(3). Accordingly, no provision for income taxes has been recorded.

Equipment

The Foundation capitalizes expenditures for property and equipment costing over \$2,500. Depreciation is computed utilizing the straight-line method over the estimated useful life of the asset. Depreciation expense for the years ended December 31, 2009 and 2008 was \$8,735 and \$11,690 respectively.

Statements of Cash Flows

For purposes of the statements of cash flows, the Foundation considers all highly liquid debt instruments with an initial maturity of three months or less to be cash equivalents.

Investments

Investments are stated at market value in the case of marketable securities and at estimated fair value for certain nonmarketable securities. The market value of public traded securities is based upon quotes from the principal exchanges on which the security is traded.

Nonmarketable securities include alternative investments, such as private equity, hedge funds, timber and real estate, which are valued using current estimates of fair value obtained from the general partner or investment manager in the absence of readily determinable public market values.

Any change in the valuation of the investments is reported as realized and unrealized gains or losses in the combined statement of activity. Dividend and interest income from investments is accrued as the income is earned.

Contributions and Grants

Contributions received by the Foundation are reported at their fair market values on the date of such gifts.

Grants made by the Foundation are recorded in the financial statements at the time the grants are approved by the Board of Trustees of the Foundation. Payments are made when requested by the grantee and any contingencies, such as obtaining matching funds, have been met by the grantee.

Contributed Services

Certain individuals have made significant contributions of their time to manage and operate the Foundation. The value of this contributed time is not reflected in these combined financial statements since it is not susceptible to objective measurement or valuation.

Endowment Funds Held for the Benefit of Others

In accordance with professional standards contained in the Not-for-Profit Entities - Transfers of Assets to a Not-for-Profit Organization or Charitable Trust That Raises or Holds Contributions for Others Topic of the FASB Accounting Standards Codification if a not-for-profit organization established a fund at a community foundation with its own funds and specifies itself as the beneficiary of that fund, the community foundation must account for the transfer of such assets as a liability. The Foundation refers to such funds as organization endowment funds held for others.

THE GREATER KANAWHA VALLEY FOUNDATION
AND AFFILIATED SUPPORTING ORGANIZATION
NOTES TO COMBINED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2009 AND 2008

11

Note 1 - Organization and Summary of Significant Accounting Policies (Continued)

The Foundation maintains legal ownership of these funds and, as such, continues to report the funds as assets of the Foundation. However, in accordance with the guidance referred to above a liability has been established for the fair value of the funds.

Fair Value of Financial Instruments

Professional standards contained in the Fair Value Measurements and Disclosures topic of the FASB Codification establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The Foundation accounts for its investments at fair value and are recorded on the Statement of Financial Position based on the inputs to the valuation techniques as follows:

Level 1

Financial assets are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities. The inputs include those traded on an active exchange, such as the New York Stock Exchange, as well as U.S. Treasury and other U.S. government securities that are traded by dealers or brokers in active over-the-counter markets.

Level 2

Financial assets are valued using inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, including inputs in markets that are not considered to be active. Level 2 includes real assets.

Level 3

Financial assets are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset. Level 3 includes alternative hedge funds.

Risks and Uncertainties

The Foundation invests in various investments, including fixed income, stocks, mutual funds, alternative investments and real assets that, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

In preparing these financial statements, the Foundation has evaluated events and transactions for potential recognition or disclosure through September 20, 2010, the date the financial statements were issued.

Note 8 - Grants Payable

The Foundation has made unconditional promises to various charitable organizations to make grant payments over future years. These grants are recorded at the present value of their future cash flows. A discount rate equal to the Treasury bill rate at December 31, 2009, or 0.44%, was used to arrive at the present value. At December 31, 2009 and 2008, the present value discount effect was approximately \$42,620 and \$34,387, respectively. Unconditional grant commitments outstanding at December 31, 2009 will be disbursed as follows:

2010	\$ 419,403
2011	289,881
2012	291,158
2013	209,399

Less current portion	<u>(419,403)</u>
Net long term grants payable	<u>\$ 1,284,980</u>

Note 9 - Related Party Transactions

Certain members of the Board of Trustees of the Foundation also participate in the management of, or are members of, the boards of various organizations throughout West Virginia. During the years ended December 31, 2009 and 2008, the Foundation approved and paid grants with a net effect of approximately \$110,249 and \$169,713, respectively, to these organizations. At December 31, 2009 and 2008, the Foundation had grants payable, at net present value, of approximately \$1,330,559 and \$1,423,585, respectively to these organizations.

Note 10 - Retirement Plan

The Foundation has a defined contribution retirement plan that covers all full-time employees having at least one year of service. For 2009 and 2008, contributions to the plan were computed at 8% of compensation. During 2009 and 2008, the Foundation recorded retirement plan expense of \$37,348 and \$27,192, respectively.

Note 11 - Administrative Fees

It is the policy of the Foundation that the administrative fee for the Foundation's operating expenses is calculated each year by multiplying 0.85% by a base. The base for the administrative fee will be the Foundation's total market value on September 30 of each year.

For the years ended December 31, 2009 and 2008, the Foundation assessed each fund an administrative fee of 0.85% on the market value of each fund. These fees are used by the Foundation to pay for administrative costs incurred in managing the Foundation and administering the funds. Administrative fees for the years ended December 31, 2009 and 2008 were \$1,082,307 and \$1,298,041, respectively. For financial statement purposes, the administrative fee income assessed by the Foundation is netted against the administrative fee expense recognized by the funds. These amounts net to zero, and no income or expense is reported.
