Activities

Important Note Before You Begin

When completing the quarterly report, please refer to the following sections of your logic model: anticipated activities, outputs, short-term outcomes, and demographics you aimed to serve and/or achieve through this project—this is the information you must report on. If there are any additional activities, outputs, short-term outcomes, or demographics served beyond what you indicated in the logic model you submitted with your application, there will be a space to provide information on those items (as well as other project updates you'd like to provide) at the end of the report that reads "please tell us anything else you would like us know as it relates to this project."

I have referred back to the logic model I submitted with my application to ensure that all activities, outputs, demographics, and short-term outcomes I have reported on within this report correspond with those I selected within my original logic model.
